WORK EXPERIENCE

[2023 – 2024] **Front End Developer**

Geek Genix LLC

City: Rawalpindi | **Country**: Pakistan

As a Front-End Developer, I specialize in crafting responsive, user-friendly web interfaces using modern frameworks like React. My expertise includes translating design mockups into clean, efficient code while ensuring cross-browser compatibility and optimized performance. I focus on creating intuitive user experiences through a strong foundation in HTML, CSS (Tailwind), JavaScript, and responsive design principles. I collaborate closely with design and backend teams to deliver seamless, high-quality web applications that align with business goals and user needs.

[2022 – 2023] **Web Developer**

Ackta LTD

City: Rawalpindi | **Country**: Pakistan

As a MERN stack developer, I specialize in building and maintaining dynamic, responsive websites using MongoDB, Express, React, and Node.js. My role involves developing efficient, scalable web applications, ensuring smooth integration between front-end and back-end technologies, and optimizing performance for seamless user experiences. I am proficient in implementing RESTful APIs, managing databases, and deploying modern web solutions tailored to meet client needs while adhering to industry best practices.

[10/2020 – 01/2022] **Ecommerce Officer**

IZOC Solutions

City: Rawalpindi | **Country**: Pakistan

A passionate eCommerce specialist with a proven track record of success in handling Amazon's Account, Product Hunting, Listing Creation and Optimization, Creating and implementing Amazon PPC strategies, Also work as web developer .

I develop and maintain a fully functional e-commerce website, handling both front-end and back-end tasks. My role includes optimizing website performance, ensuring security,

and integrating secure payment gateways. I collaborate with cross-functional teams to implement new features and improve the user experience. Additionally, I troubleshoot and resolve issues to ensure the website runs smoothly and efficiently.

[2018 – 2020]

Web Developer

Ackta LTD

City: Rawalpindi | **Country:** Pakistan

In my current role as a Front-End Web Developer, I am responsible for developing and maintaining a responsive website using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**. I ensure that the site is optimized for various devices and provides a seamless user experience. My work involves implementing dynamic features, ensuring cross-browser compatibility, and improving performance for faster load times. Additionally, I collaborate with other teams to keep the website updated and aligned with business objectives.

Full stack Development

I am creating an online travel agency website focused on flight bookings. This project involves designing a user-friendly interface for seamless flight searches and bookings, implementing secure user authentication, and integrating payment gateways for smooth transactions. I will also develop an admin dashboard for efficient management of flight listings and bookings. Through this project, I aim to enhance my skills in full-stack development while delivering a robust solution for travelers.

Career Predivtion

I successfully developed a comprehensive Career Prediction website that leverages data analytics to provide users with personalized career recommendations. The platform features a user-friendly interface, secure authentication, and an intuitive algorithm to

analyze user inputs and suggest suitable career paths. Through this project, I enhanced my skills in both front-end and back-end development, delivering a robust solution that empowers users to make informed career choices.
